

South Hereford Motor Caravan Centre NewsLetter

December, 2022

SHMCC

We would like to wish all our customers, new and old a very Merry Christmas and a happy New Year

Many dealerships have faced difficulties during 2022 with stock availability. With a longer than average delivery times on new stock, and more newcomers to the leisure industry, the used motorhome market has been booming. Whilst this has caused many dealerships to have a shortage of stock SHMCC have worked tirelessly to maintain our high standards and consistent levels of stock.

We would like to thank all the customers who have been patient with us through these market industry challenges. Going forward into 2023 there is still limited availability on new stock, so please contact our sales team on the below channels to secure your dream motorhome.

Industry Challenges

2022 has seen some challenges for manufactures and dealerships with delays on components and parts. Looking to 2023 we are hopeful that delivery times will ease moving forward and would like to thank our customers for their continued patience.
